## 1. About VIKAS CFD

### (a) The goal of VIKAS CFD

To plan and implement community led initiatives to address the twin issues of climate change and abject poverty.

### (b) Our Understanding of Development Process

VIKAS CFD defines development process as a movement of marginalized sections of the society from the state of existence characterized by poverty, deprivation and under development to a state of being where all attain better quality of life and live with self-respect and dignity.

### (c) We Work With

The economically and socially marginalised communities include agriculture labourers, small and marginal farmers, fishermen, small salt producers, charcoal makers and industrial workers belonging to scheduled tribe and caste.

### (d) Focus Areas

VIKAS CFD focuses on twin interlinked issues of Climate Change and abject Poverty. The concrete initiatives include rejuvenating coastal resources by carrying out large-scale community led plantation of mangroves and associates along the coast of Gujarat, revitalizing village water bodies, reducing carbon footprints by promoting use of renewable energy, establishing village level solid waste management programmes water & sanitation, waste management and livelihoods & enterprise development.

Over the years, VIKAS CFD has been focusing on restoring linkage between environment and human beings, particularly marginalised coastal communities through implementing development programmes which improve their quality of life through innovations and by deploying resources of the state, industries and resource institutions.

### (e) Development Approach

Our approach, keep people from marginalised sections of the society in the center in the entire development process starting with defining the problem and designing as well as implementing the solutions.

Environment and institutional sustainability are two key elements of the development strategy of VIKAS CFD. The organisation focuses on participation and empowering of local people, particularly women in planning and implementation of the programmes. VIKAS CFD invests efforts and resources to improve quality of environment through initiating and strengthening the village and area level organisations of local people so that future sustainability of the initiatives is ensured.

### (f) The Process we follow

1) Inquire – understanding the situation, 2) Identification of Issues, 3) Designing the Initiatives, 4) Implementation process moving from small to large scale by establishing, 5) Impact assessment, 6) completing the loop by reflecting on feedback.

The process of *action and reflection* is an integral part of our development work. In essence VIKAS CFD is an ever learning organisation.

## 2. Our Competencies

Strength of VIKAS CFD is in finding creative and innovative solutions to issues and problems faced by marginalized sections of our society through community rooted processes.

### (a) Out Team

Our strength lies in the team of 38 persons combining idealism with Professionalism. The team is headed by an Architect having 50 years of work experience in urban and rural development. The team members include persons with background in Architecture, Regional Planning, and Masters in Rural development, Masters in Social Work having more than 20 years of work experience in rural development.

The team also has good mix of people coming from marginalized sections of the society and having traditional understanding and wisdom of issues faced by poor and marginalized communities.

### (b) The Geographical area of Current Work

At present VIKAS works in villages of Vagra, Amod and Jambusar talukas of Bharuch district, Patdi & Dhrangadhara talukas of Surendranagar district and Danta taluka of Banaskantha district, Mansa taluka of Gandhinagar district and Kori Creek area of Kutch district of Gujarat.
